AMBI:068US

In re Application of: Gary J. Latham et al.

Application No.: 10786,875

Filed: February 25, 2004

For: IMPROVED NUCLEASE INHIBITOR COCKTAIL

The owner, AMBI-ON, INC., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term prior patent No. 6,684,379, as the term of said prior patent is defined in 35 U.S.C. 154 and 173, and as the term of said prior patent is presently shortened by any terminal disclaimer. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of the term of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of the prior patent, "as the term of said prior patent is presently shortened by any terminal disclaimer," in the event that said prior patent later:

- is held unenforceable;

- is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321;

Alexandria, VA 22313-1450

Sir:

alternative format. Additionally, newly added independent claims 109 and 110 incorporate the subject matter of claims 28, 29, and 34, respectively.

Because claims 13, 21, 23, 28-29, 34, and 45 are not rejected by the above cited references, the present anticipation and obviousness rejections under 35 U.S.C. §§ 102(b) and 103(a) are rendered moot. Therefore, Applicants request that these rejections be withdrawn.

Applicants note that the amendments to the claims should not be construed as an acquiescence to the rejections. Applicants reserve the right to file a continuing application directed to additional subject matter in the future.

D. The Double Patenting Rejections Are Overcome

There are four separate obviousness-type double patenting rejections. Applicants are filing the appropriate terminal disclaimers along with the present response. In view of this, the obviousness-type double patenting rejections are overcome and should be withdrawn.

E. Conclusion

Applicant believes that this document is a complete response to the Office Action mailed November 16, 2005. The present claims are in a condition for allowance and such favorable action is requested.

The Commissioner is hereby authorized to deduct any fees required by 37 C.F.R. §§ 1.116 to 1.21 as a result of the filing of this paper, including the terminal disclaimer fees required by 37 C.F.R. § 1.20(d), from Fulbright & Jaworski Deposit Account No. 50-1212/AMBI:089US.

The Examiner is requested to contact Applicant's representative at (512) 536-3035 with any questions or comments concerning this application.

Respectfully submitted,
